The official campaign site for Jon Huntsman's 2012 presidential bid. This website provided up to the minute information about news and events, increased fundraising through supporter self-fundraising pages, and increased newsletter signups. We incorporated social media campaigns including a series of 24-Hour Facebook fundraising initiatives where supporters challenged others through donation matching directly on the Facebook page, a "Top Supporters" initiative on Facebook where followers gained points for "Likes" and posting links for Huntsman news to earn campaign swag, a Twitter Q&A session with the candidate, and a "Huntsman Twitter Takeover" where we managed to increase tweets per day about Jon to well over 1,500.
